

# DevCom / DevCom FF

Fast and easy configuration and parameterization of HART or FOUNDATION Fieldbus field devices

- Affordable HART / FF device communicator together with mobiLink and an intrinsic safe tablet
- Perform complete FF device configurations using your Windows device
- Comfortable access to device data by supporting HART / FF DD files
- Always up-to-date DD files with the DD library subscription

## Perform complete HART or FF device configurations

- Supports HART 5, 6, 7 and HART-IP
- Monitor PV, Multi-variables and Device Status
- View and edit device variables
- No tag limits

## The most affordable DD based mobile HART / FF communication solution available

- Comes with all the latest registered DD's from the FieldComm Group
- Complete access to all features of the device DD including Methods
- Complies with new Enhanced DDL standard (IEC 61804-3)
- Additional DD library updates available (one-year updates included)
- permanent DD library update is possible

## Save and write saved configurations

- Save configurations
- Write saved configurations to device
- Clone devices
- Generates PDF report for documentation

## Available for Android, Windows and iOS

- Guaranteed to work with Windows 7 and 10 (32 and 64 bit)
- available for Android: DevComDroid (HART), DevComFF.Droid (FF)
- available for Windows: DevCom2000 (HART), DevComFF.Win (FF)
- available for iOS: DevCom.iOS (HART)

# DevCom / DevCom FF

## Technical Data

<b>System</b>	Operating System	Android Jelly Bean (4.3)
<b>Requirements Android (minimums)</b>	Memory RAM	1 GB
	Memory ROM	2 GB
	Screen	960x540
	Communication Port	Bluetooth or Ethernet

<b>System</b>	Operating System	Windows 7 and 10 (32 and 64 bit)
<b>Requirements Windows (minimums)</b>	Memory	256 MB
	Hard Disk Space	1.6 GB
	Communication Port	USB, Bluetooth or Ethernet

<b>Functions</b>	<ul style="list-style-type: none"><li>▪ Monitor PV</li><li>▪ Monitor Multi-variables</li><li>▪ Monitor Device Status</li><li>▪ View and Edit Variables</li><li>▪ Save complete device configuration to text file and PDF file</li><li>▪ Write saved configurations to devices</li><li>▪ Sample Execute Methods:<ul style="list-style-type: none"><li>- Trims</li><li>- Calibrations</li><li>- Loop Tests</li><li>- Zero and Span</li></ul></li></ul>
------------------	--

## Scope of Delivery

Software	Installation files available for download
Documentation	User Guide

## Order Numbers

LRA-MM-020670	<b>DevComDroid HART</b> – Android application for HART device communication
LRA-MM-020671	<b>DevCom2000 HART</b> – Windows application for HART device communication
LRA-KK-020673	<b>DevComFF.Win</b> – Windows application for FF device communication
LRA-KK-020672	<b>DevComFF.Droid</b> – Android application for FF device communication
LRA-MM-020672	<b>DevCom.iOS HART</b> – iOS application for HART device communication
LMA-MM-020680	One-year updates of HART DD library
LMA-MM-020675	Updates of HART DD library without expiration

## Additional products and services

DBA-KM-020410	<b>mobilink</b> for HART – HART USB and Bluetooth interface for DevCom
DUA-KM-020440	<b>mobilink Power</b> – USB interface for DevCom2000 HART and DevComFF.Win with integrated power supply for field devices
